

Online Survey for Air Quality Concerns in the Greater Boston Area

Who are we? The Community-Led Improvement of Air Quality and Health in the Lower Mystic (CLEANAIR) is a research project funded by the Environmental Protection Agency (EPA) and led by the Mystic River Watershed Association (MyRWA). Our goal is to improve transportation related air quality and health in the Greater Boston area.

What will the survey ask?

- Questions about how **residents feel** about air quality in their communities.
- **Specific areas of concern** such as schools, residential and recreation areas near high traffic roadways.

Can you take the survey?

- The survey is designed for community members aged **16 and over**.
- It is **completely voluntary** and information will be used **anonymously**.
